Cuts and scrapes, for example, should be rinsed with cool water. To stop bleeding, apply firm but gentle pressure, using gauze. If blood soaks through, add more gauze, keeping the first layer in place. Continue to apply pressure. It is important to have a first aid kit available. Keep one at home and one in your car. It should include a first-aid guide.

First-aid responder must have a well-stocked first-aid kit readily available at the worksite. OSHA encourages employers to consult with a medical professional or trained first responder such as a local fire department to determine the contents of a first aid kit. Some industries have specific guidelines for first aid kit locations and contents.
