N. Herstein was a great authority and his writing has unusual clarity. Topics is not only more advanced than the other but I think it is simply the better book. The first edition helped me in graduate school some thirty years ago.

Topics in Algebra, 2nd Edition: I. N. Herstein

Herstein's mathematical writing is some of the best, at times a pleasure to read. I recommend this book, especially for self study or a supplement to an algebra course. This book is worth a skim even for its historical value as an example of who to construct a mathematical text.
