James F. Kurose University of Massachusetts, Amherst Keith W. Ross Polytechnic Institute of NYU COMPUTER NETWORKING A Top-Down Approach ... Java-based socket programming labs have been replaced with corresponding Python labs, and a new Python-based ICMP Ping lab has been added. As always, when material is retired from the book, such as

Senior Project Manager: Printer/Binder

Unique among computer networking texts, the Seventh Edition of the popular Computer Networking: A Top Down Approach builds on the author's long tradition of teaching this complex subject through a layered approach in a "top-down" manner. The text works its way from the application layer down toward the physical layer, motivating students by exposing them to important concepts early in their study of networking.
